(1)

In the Summer of 1953, I was an advisor to the local Youth Council of the United Nations Association of Canada. Participating in West Virginia. The July - August encampment (which I had been invited to meet with local Caucasian Association Chapters from the United States and Canada) and Negro women met with me and suggested we keep the United Nations Youth Council in Martinsburg, West Va.

From this day on both women were hard at work on the Martinsburg Youth Council of United Nations Assn.

I found during this time both women had connections

week. The next week, the white woman, Jackie Ludgrin of Virginia Tech, had recently married a Chinese Taiwanese to come up from the South and rented a studio apartment and asked if I would show him some rooms I had available.

In the second week of October she [illegible] "Lee" moved to town to look at the apartments.

She introduced Lee to me as Lee Owens. She was not the real Lee Owens.

I realized this and was NOT interested in renting. I had a feeling they were going other reasons.

The woman I had met had been [illegible] was active in the Civil Rights Movement in

the South. She also informed me she was going to Stake Rm in the COR Meeting that week.

However, the man she took to this meeting was introduced as Hyrum, I was out at this meeting but learned he was a "Navajo, Country, Charter" representative.

No more was mentioned about "this Hyrum" until Nov. 30th, a group of us were discussing Jack Lunt of Bear Lake Area Charter & Negro, Rex Richards. In this meeting the Negro man, Rex Richards, Martin Frey, Kid, wanted Samuel Taylor one question but seemed extremely frightened. Order Instructions were left at this meeting if he saw

Gening until Linda Lowe (wife of Lee) Brumfield L. Lowe went to the police and called her to Lowe Lowe's house. It was after this meeting Jackie Lundgren said to me she would be going to [illegible] next week (around the 11th or 12th) to see Lee Lowe's [illegible]

Two days later President Kennedy was assassinated.

Thelma Tibbles (the negro woman who had just come with Jackie Lundgren to get me to help in organizing the Youth Chapter in Baton Rouge) forced me to tell her Jackie Lundgren was the [illegible] Lee Lowe's [illegible] and a "pervert"

was stationed at Lee Door, around the Cache.

Around the middle of December (1963) Linda Johnson received a note written on Hancock letterhead at Fort Leonard Wood, Mo. The letter asked if Linda would like to be pen pals. Linda was excited, for she had no pen pals. We exchanged pictures and in the letter she told me she had been married but was getting a letter.

I don't remember how I got to her name.

In January (1964) I had an unusual figure (Paul Hankins, a friend that Jackie Sutherland had a crush on who's wife, Pat, was Jackie's best friend) mark on his face and I asked a bunch of Cadets, regarding it
